

DialoQ® Imaginer™

Create symbol-supported visual stories, instructions and learning materials from written or spoken content. Present them in full screen or print them.

Who is it for?

Therapists and AAC professionals

Communication, therapy and AAC modelling.

Schools and pre-schools

Visual stories, learning materials and instructions.

Children, families and AAC users

Personal stories for shared or independent reading.

From Story to Visual Presentation

Write, dictate or paste text. Imaginer adds suitable symbols automatically. Save stories to your own visual library, present them in full screen or print them.

**Visual stories
in minutes!**

Features

- **Stories in minutes** – Create visual stories from speech or text.
- **Presentation Mode** – Show stories in full screen, step by step.
- **Visualised speech** – Speech, text and symbols stay synchronised.
- **Intelligent text analysis** – Finds suitable symbols automatically.
- **Personal images and symbols** – Use DialoQ Symbols or your own images.
- **Print, save and reuse** – Print and save stories for later.
- **Communication boards in one click** – Create a board and export it to DialoQ Talk.

We Talk Together

DialoQ[®] Talk

Smart communication with symbols and text

DialoQ Talk is an AAC solution for symbol and text communication and the creation of printable materials. Available for Windows and Android, it combines flexible communication tools with intelligent on-device technology.

Smart Communication

SmartGrammar™ – Automatically selects the correct word forms, making symbol communication faster and more natural.

SmartContext™ – Uses the current conversation and context to provide more relevant word predictions for text communication.

Both technologies run **directly on the device**, without requiring an internet connection.

DialoQ[®] Speech N

DialoQ Talk can be combined with **DialoQ Speech N**, our on-device AI speech synthesis. Natural, high-quality voices are available for **both adults and children**.

DialoQ[®] Symbols

Includes the fully hand-drawn DialoQ Symbols library with more than **14,000 symbols** for everyday communication and printable materials.

More than communication

Flexible boards – Choose fully free-form or grid-based layouts to suit different users and situations.

Multiple access methods – Touch, switches, mouse, and eye tracking.

Environmental control – Control compatible devices directly from DialoQ Talk.

Printable materials – Create communication boards, visual supports, learning materials and other symbol-based resources.

Smart communication, all in one.
